School Board.

School Report.

The School Board respectfully present the twenty-second annual report:

There have been twenty-six weeks of school during the past year, and six schools in operation. It was the intention of the School Board to divide the money so as to give each school a spring term of twelve weeks and a fall term of fourteen weeks; but owing to the prevalence of diphtheria, measles, etc., Nos. one and six had but ten weeks in the spring and sixteen weeks in the fall and winter term, thus receiving their equal share of the money. Number five had twelve weeks in the spring, but as whooping cough made its appearance among some of the pupils in the winter, the term was closed at the end of twelve weeks; but we hope the balance of the money due the school may be given to them in the coming spring term.

As there were but three pupils in number seven, arrangement was made to have them attend the Kilrea school in Derry, by paying expense of tuition and conveyance.

Number two, four and six have had respectively four, three and six weeks provided for by income of funds.

We believe those in our employ have been faithful in their endeavors to thoroughly instruct those under their care, and that good progress has been made in most schools.

Irregular attendance of pupils has been a great hindrance to success with quite a number, but we are glad to report that many have had their names placed on the roll of honor for perfect attendance for one term and for two terms. We wish to urge parents to encourage and aid their children to attend school regularly and to co-operate as much as possible in the school work.

Ninth Annual Report of the Antiquarian Committee.

The gift of a large and handsome display case for relics was received last March and placed in the library building. It was donated by Miss Clarissa Hills of Nashua, as a memorial of her service as librarian of Nesmith library for seven years, from its opening in June, 1871. For this generous gift Miss Hills deserves hearty thanks. The case has been filled with valuable relics and articles of historical interest.

John E. Cochran has donated an ancestral foot-stone.

An album has been procured and in it have been arranged forty-five postcard views of homesteads, public places and scenery in the town of Windham. These views are a gift from an interested person. It is intended to add other views of places in town whenever they can be obtained.

Thirty - Seventh Annual Report

OF THE

Trustees of Nesmith Library,

FOR THE YEAR ENDING FEBRUARY 15, 1908.

It would be easy to draw out an extended report showing the value of a public library, the extent to which ours has grown, the best way to utilize it and so on to the end of the chapter, but all this the people of Windham know. Hence, why waste paper and printer's ink?

The old rule still holds good, "When you have nothing to say, say it quick and have done with it." That is why we close, almost before we begin, by simply saying the library has been open all through the year as usual, new books have been introduced and good literature furnished for the reading room. The librarian's report, which is herewith submitted, will give the particulars as to circulation, also a list of the new books.

To those who have presented books, magazines or papers to the library, we herewith return thanks.

Respectfully submitted by

ALBERT WATSON,

For the Trustees.
